NOCOR INSTRUMENTS

Authorized Service Partner for Laboratory Analytical Instruments

- **Thermo Fisher** Authorized Service
- **Preventive Maintenance** & Repair
- **Preventive** Maintenance & Repair
- **3Q Validation** IQ/OQ/PQ
- **Genuine Spare Parts** & Consumables
- **Genuine Spare** Parts & Consumables
- **Instrument Relocation** & Installation
- **Technical** Training

Serving Pharmaceutical, Environmental, Food Safety and Petrochemical Laboratories Worldwide

NOCOR

SERVICE CAPABILITIES

Professional Instrument Services

Full-Lifecycle Support for Laboratory Analytical Equipment

- **Authorized** Service Partner
- **Preventive** Maintenance
- **Preventive** Breakdown Repair
- **3Q Validation** IQ/OQ/PQ
- **Breakdown** Repair
- **Genuine Spare** Parts
- **Genuine** Spare Parts
- **Relocation &** Installation

Covering LC, GC, ICP, LC-MS, FTIR and Other Analytical Equipment

Our Services at a Glance

Our Services at a Glance

Reliable Support for Your
Your Laboratory Instruments

Preventive Maintenance

Reduce unplanned downtime

Emergency Repair

Minimize production impact

3Q Validation

Fast response support

Keep instruments stable

3Q Validation

IQ / OQ / PQ documentation

Meet compliance requirements

Spare Parts Supply

Genuine parts available

Worry-free replacement

Safe disassembly & relocation

Worry-free replacement

Precision reinstalation reinstallation

Hands-on training

Technical Training

Improve lab efficiency

One-stop service for analytical instruments to daily operation
from installation to daily operation

Instruments We Support

Professional Service for Major Analytical Equipment

Liquid Chromatography LC

HPLC and UHPLC system maintenance

Gas Chromatography GC

Column care, leak check and performance tuning

ICP-OES / ICP-MS

Sample introduction

and routine service

Mass Spectrometry ICP-Q/MS

Vacuum, source and performance support

Mass Spectrometry LC-MS

Vancs lere ad performance support

Mass Spectrometry LCF-MS

Vacuum, source and performance support

FTIR Spectrometer

Optical check,

calibration and training

General Lab Equipment

Installation, maintenance and relocation

—

From routine maintenance to complex troubleshooting,
we cover the full instrument lifecycle

NOCOR

SPARE PPARTS & CONSUMABLES

Trusted Parts Supply

Cpenpatible Consumables for Daily Laboratory Operation

LC Consuumables,

Viper tube, PEEK fittings, injection needle

Rotoor Seal & Check Valve

Stable performance for routine maintenance

Rotr & Check Valve.

Stablle performance
for routine maintennance

Rheodyne Seal Check Valve.

Stable pefeformance
for routine maintenance

HPLC Columns

Compatible columns
repalacement parts

Flow Cell & Degaasser

Stable performance with
analytical instruments

HPC Columns:

Standard columns for
analytical workflows

—

Gemuine and compatible parts available with clear part references

How We Work

Clear Process, Reliable Execution

01 Inquiry

Share instrument issue or service need

01 Inqquiry Sspas

instrumnchis and propose solution

01

02

02 Diagnosis

Evaluate condition
and propose solution

03

3Q Validation

Provide clear scope
and pricing

03

03

Quotation

Provide clear scope
and pricing

04

04 Execution

Perform maintenance,
repair or validation

05

05

Execution

Perform maintenance,
repair or validation

05

Handover

Report, training and after-service support

Each project follows a documented process to reduce uncertainty and improve service quality

Reliable
Reliable Laboratory Service Partner

Professional Support,
Clear Process, Global Mindset

Authorized Service

Standardized technical support and documented support and documented procedures

Technical Expertise
Experienced engineers for LC, GC, ICP, LC-MS and FTIR

Technical Expertise

Exinterance, repair, validation, relocation and training

Full Lifecycle

Maintenance, repair, validation, relocation and training

Spare Parts

Genuine parts and reliable supply chain

Designed for pharmaceutical, environmental, food safety and petrochemica petrochemical laboratories
